WE'RE STILL HERE

After a month off, the American Soccer League office is once again making the sounds of a busy enterprise.

What's all that noise, you say? We're getting ready for our 50th Anniversary! Yes, sir (and ma'am), we're working hard in an effort to make the 50th year one heck-of-a show.

Among the many items that we're working on, is a full line of souvenir memorabilia and many other special prizes and projects that will commemorate this very exciting occasion.

But that's not all we're dealing with. Several league representatives are actively working toward a goal of regional set-ups for next year. Many potential franchises have contacted us, and we also, have been going out, seeking new teams.

There is also a concerted effort to put together a Mini-Soccer series later in the winter. If all goes well with this, Mini-Soccer could be a future realism for the ASL on a yearly basis.

And that's not all! A major effort is currently underway to bring an ASL franchise to Houston, Texas. The former Nashville Diamonds franchise, now dormant, is a potential ASL addition down south.

Man, oh man, it's going to be soccer season before you know it.

OY, YOY, YOY!

Have you been trying to call us? It's a long story, but the ASL finally has its own phone system (in the past we shared the Pennsylvania Stoners phones). So get your pen out, because here's the new phone number--(215) 868-1750-868-1751. Same Address.

LEAGUE MEETING

The Board of Governors of the American Soccer League will have
